

# Company Profile

## WFX — Dongguan Wanfuxin Intelligent Manufacturing

WFX is a precision CNC manufacturer founded in 2007, based in Dongguan, Guangdong, China. We provide CNC milling, turning, 5-axis machining, finishing and assembly from prototype to production for customers in aerospace, medical, electronics, liquid cooling, industrial and robotics industries worldwide.

### At a glance

Founded	2007
Facility	~20,000 m <sup>2</sup> self-built plant
Equipment	300+ CNC machines
Certifications	ISO 9001:2015, IATF 16949:2016
Tolerance capability	to $\pm 0.005$ mm ( $\pm 0.0002$ " )
Markets served	10+ countries
Inspection	Zeiss & Hexagon CMM, full traceability

### Capabilities

- CNC milling (3, 4 and 5-axis) • CNC & Swiss turning • Precision grinding & EDM
- Surface finishing (anodizing, plating, passivation, polishing) • Assembly & turnkey
- 50+ materials: aluminum, stainless, steel, titanium, copper, brass and engineering plastics

### Why WFX

Certified quality systems, full material and process traceability, CMM-verified dimensional reports and FAI on request, and a free 24-hour DFM review on uploaded STEP files. Upload your design at [wanfuxin-dg.com](http://wanfuxin-dg.com) to get engineering feedback and pricing fast.
